

AGRA Peet™

Premium Dairy Fiber

by

Agra Peet™ is derived from dairy fiber by a proprietary process that involves extracting excess liquid and allowing the manure to naturally heat up under aerobic conditions in a rotating drum. The finished product tests pathogen free and is suitable as a planting medium, planting medium blend ingredient, soil amendment, or livestock bedding material.

Benefits of Agra Peet™

- Renewable/Sustainable
- Retains water
- Provides plant nutrients
- Provides soil aeration
- Provides beneficial micro-organisms
- Improves soil structure
- Pathogen free
- Multiple uses
- Promotes sustainability in the dairy industry
- Economical
